

Bandaru Sai Charan

Banashankari 3rd Stage, Bangalore, India

saicharanbandaru2003@gmail.com | LinkedIn | GitHub | Portfolio

Objective

MCA student with hands-on experience in Python, MERN Stack, Machine Learning, and responsive web development. Skilled in building AI-powered applications, REST APIs, scalable web solutions, and intuitive user interfaces using agile development practices. Seeking opportunities as a Software Development or UI/UX Intern to apply technical and problem-solving skills in real-world projects.

Education

MCA, PES University, Bangalore	Pursuing
BCA, REVA University, Bangalore	2022 – 2025
Intermediate (BIPC), Sri Nalanda Junior College, Andhra Pradesh	2020 – 2022
Secondary Education, Infant Jesus E.M High School, Andhra Pradesh	2019 – 2020

Technical Skills

- **Programming Languages:** Python, Java, JavaScript
- **Web Technologies:** MERN Stack, React.js, Node.js, HTML, CSS
- **Database:** MySQL
- **AI/ML:** Machine Learning, Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Natural Language Processing (NLP), Scikit-learn
- **Tools:** VS Code, GitHub, Jupyter Notebook, Anaconda, n8n
- **Concepts:** REST APIs, SDLC, Agile Development, Version Control, Problem-Solving

Projects

AgroSmart – AI-Powered Crop Recommendation System GitHub

- Developed an end-to-end Machine Learning crop recommendation system using Random Forest and Scikit-learn, achieving 92% prediction accuracy on agricultural datasets and providing crop suggestions based on soil nutrients and environmental conditions.

AI ApplyOS GitHub

- Built an AI-powered ATS system leveraging LLMs, RAG, and NLP techniques to process resumes, extract key skills, and evaluate candidate-job compatibility using automated scoring and semantic search.

Sales Intelligence Platform

- Developing an AI-powered SaaS platform with 5+ AI agents for prospect research, lead scoring, and personalized sales outreach.
- Building scalable backend services using FastAPI, PostgreSQL, Redis, and vector databases supporting semantic search across 1,000+ business records.
- Implementing LLM-powered CRM insights, workflow automation, analytics dashboards, and role-based access control (RBAC).

Soft Skills

- Communication
- Team Collaboration
- Problem-Solving
- Time Management

Achievements

Hackathon Participation (4th Place)

- Achieved 4th place through effective teamwork and project execution.

Campus Ambassador - Zuno by Foundit

- Promoted learning initiatives and encouraged student participation in skill development programs.

Certifications

- MERN Stack Web Development – Udemy
- Google UI/UX Design – Google
- Generative AI – Udemy
